Dear _____:

Thank you for your interest in our Ecology Road Show, which is made possible by a generous grant from the Los Alamos National Laboratory Foundation. This letter is your confirmation notice. Please distribute a copy of this letter to all participating teachers.

We will need to rotate classes through activities, preferably between classrooms. We are flexible in the amount of space we need; just a few cleared desks or a table per classroom will do. Your students will need paper and pencil.

For liability reasons a classroom teacher's presence is required during all activities. **We ask that you rotate through the activities with your class.** You are responsible for assisting students and providing necessary discipline.

Preparation is the key to a successful field trip. For pre and post visit activity ideas you can download our free ecosystems curriculums from our website at www.nmnaturalhistory.org. Click on the Education link at the top of the page, then click on the curriculum link on the left side of the page.

Please check the information below, fill in the special needs and direction boxes and return to the Sandia Mountain Natural History Center to confirm your date.

Ecology Road Show (2 hours, in school)

Name of School:

Time of program:

School District:

Number of Classes :
